The goal of Petite Academy is to provide learning and nurturing environment that allows each child to grow and express themselves as individuals. Our staff is committed to working within each child's comfort zone within a low student-teacher classroom ratio.

PHILOSOPHY AND PROGRAM DISCRPTION

Our philosophy is based on a set of strong held beliefs:

We believe each child is unique individual. We are sensitive to their social, emotional, intellectual need. We provide a developmentally appropriate program that Focuses on the process of learning and help the children enjoy successful experiences. We encourage, not just learning, but the love of learning.

We believe in providing a physical environment that is safe, clean, healthy and oriented to children. Classrooms are arranged to offer challenging play and learning choices at a range of developmental levels. Discovery centers allow children the opportunity to explore, to experience, and most importantly to succeed.

We believe the strength of our program is the dedication of our teaching staff. We support our teachers with training, resources and freedom to create a unique learning experience for children. We provide many opportunities for teachers to share ideas and grow professionally. Our teachers create a caring and nurturing atmosphere and foster each child's creativity and positive self-image.

We believe in positive methods of discipline. We establish constant, age appropriate limits to help children function in their world. Our programs are designed to develop in children a sense of independence and responsibility. We desire to strengthen each child's own cultural identity, while instilling a respect for others who may be different.
